

# Welcome home!

You will see that we have made some changes.

Don't panic - this is just to ensure you have a **safe** and **social** time here with us.

What's staying the same? - the **attentive service**, that you know and love.

- **Everyone will be seated by one of our friendly and familiar hosts.**
- **This is a seated table service, which means no orders can be taken at the bar.**
- **Our floor plan and layouts have been adjusted to suit social distancing.**
- **We know it's tricky, but please keep children seated.**
- **You will see our diligent team members attending to hygiene in high touch areas and the kitchen are strictly following the best practice guidelines.**
- **Sanitiser is available to you - please use as you enter.**

Other than that - **sit back, relax, enjoy** being waited on and have a wonderful time.

Be rest reassured, we are doing everything possible to keep you safe and well and having a great time while you are visiting.

Oh yes, one more thing - here's a reminder of the government's guidelines on allowed social meetings:

*Indoor gatherings should only be occurring in groups of up to 2 households, while outdoor gatherings should only be occurring in groups of up to 2 households, or a group of at most six people from any number of households.*

**Thank you for your continuing custom and support**
